

**Technology and service for water  
and waste water treatment for  
industrial applications**

# Technology and service for water and waste water treatment for industrial applications

ENVIRO FALK AG is renowned for its broad product range and demand-oriented applications. Often, engineering processes have to be combined in order to achieve the most effective

results. Within our company group EnviroWorld we are also able to supply equipment for process water treatment and waste water sterilisation, respective decontamination.

## CHEMICO-PHYSICAL PROCESSES

### ENVOCHEM®

Individually planned waste water treatment systems or process water circuits

- Chemicals / Pharmaceuticals / Cosmetics
- Transportation / Automotive
- Textile / Laundry
- Waste
- Solar / Glass
- Food
- Metal / Galvanic

### SPLIT-O-MAT®

Compact multi-purpose installations for cleaning and neutralising smaller volumes of highly contaminated waste water

- Construction Sites
- Tunnelling
- Food / Beverage
- Transportation / Automotive
- Waste / Landfill / Energy
- Neutralisation
- Textile / Laundry
- Car Washing Installations

### FLOMAR®

Individually planned high-performance flotation systems for larger wastewater volumes

- Food
- Industrial Waste Water
- Meat Processing

## LUGAN®

Compact systems for smaller and medium waste water volumes, especially designed for advanced treatment of waste water from rinsing processes.

- Transportation / Automotive
- Waste / Landfill / Energy
- Car Washing Installations

## BIOLOGICAL PROCESSES

### BIOMAR®

High performance plants for biological waste water treatment and biogas generation.

- Industrial Waste Water
- Chemicals / Pharmaceuticals / Cosmetics
- Food / Beverage
- Waste / Landfill / Energy

## MEMBRANE PROCESSES

### ENVOPUR®

Individually planned membrane processes for recycling process and waste water and for separation purposes.

- Chemicals / Pharmaceuticals / Cosmetics
- Transportation / Automotive
- Textile / Laundry
- Food

## PROCESS WATER TREATMENT

Planning and construction of custom-designed process water treatment installations

- Optical Industry
- Metal Processing Industry
- Flat Glass Industry
- Solar Industry
- Graphic Industry
- Health Facilities

## WASTE WATER STERILISATION / DECONTAMINATION

Decentralised water and waste water treatment plants

- Laboratory
- Hospital
- University / Research
- Food Institute
- Veterinary Laboratory
- Biotechnology
- Pharmaceutical Industry

## SERVICE AND MAINTENANCE ON A PROFESSIONAL LEVEL

- Maintenance and plant servicing
- Supply of original spare parts
- Highly efficient process chemicals and consumables
- Process optimisation
- Personnel and technical training
- Waste water analysis in-house
- Laboratory tests in-house

*« TOGETHER WITH YOU WE DEFINE THE MOST OPTIMAL PROCESS TECHNOLOGY. »*
